(54) Title: PRESENTING A COLLECTION OF MEDIA OBJECTS

(57) Abstract: Systems and methods of presenting media objects are described. In one aspect, a group of media objects is selected from the collection based upon media object relevance to one or more data structures of a selected media file of indexed, temporally-ordered data structures. The selected media file and the media objects of the selected group are presented contemporaneously. In another aspect, media objects in the collection are grouped into multiple clusters based upon one or more media object relevance criteria. The media object clusters are arranged into a hierarchy of two or more levels. A selected media object cluster is presented contemporaneously. Systems for implementing these media object presentation methods also are described.

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.

° Special categories of cited documents :

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the international filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the international filing date but later than the priority date claimed

- *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- *Z* document member of the same patent family
