[illegible]

Figure 1 is a schematic diagram of a multi-layered structure, likely a semiconductor device or a similar electronic component. The diagram is divided into two main sections, (a) and (b), which show different configurations of the layers and components.

Section (a): This section shows a cross-section of the device. The layers are labeled with numbers 1 through 8, and the components are labeled with letters a through f. The layers are represented by horizontal lines, and the components are represented by vertical lines. The diagram shows a sequence of layers and components, with some layers being thicker than others. The components are arranged in a specific sequence and configuration, which is detailed in the accompanying text.

Section (b): This section shows a cross-section of the device, similar to section (a), but with a different configuration of the layers and components. The layers are labeled with numbers 1 through 8, and the components are labeled with letters a through f. The diagram shows a sequence of layers and components, with some layers being thicker than others. The components are arranged in a specific sequence and configuration, which is detailed in the accompanying text.

The diagram is a schematic representation of a physical structure, likely a semiconductor device or a similar electronic component. The layers and components are arranged in a specific sequence and configuration, which is detailed in the accompanying text.
