(54) **Title:** SYSTEM AND METHOD FOR ADAPATABLEMULTIEMEDIA DOWNLOAD RESULITING IN EFFICIENT AIR-LINK USAGE

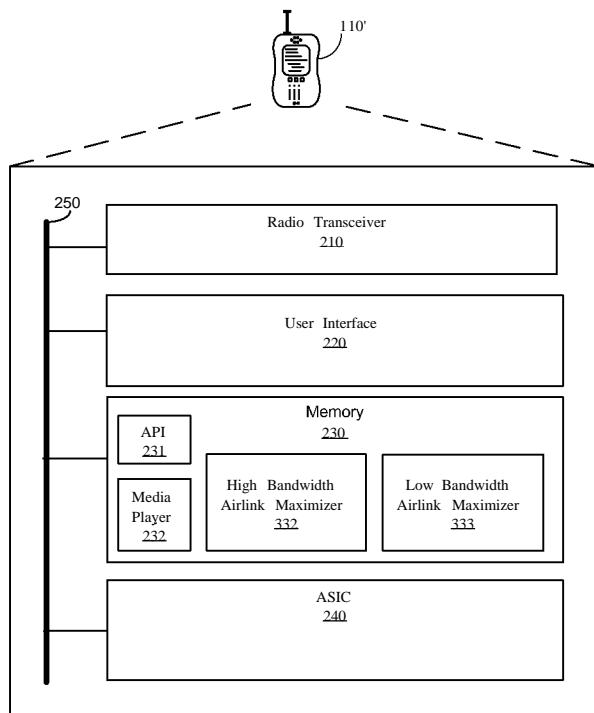

Fig. 3

(57) **Abstract:** Apparatus and methods provide for a way to intelligently maximizing capability for a media download service over a wireless network. An available bandwidth of the wireless network is estimated and compared against a threshold. If the available bandwidth is above a predetermined threshold, the service is operated in a high bandwidth mode. If the bandwidth is not above a predetermined threshold, the service is operated in a low bandwidth mode.

INTERNATIONAL SEARCH REPORT

International application No
PCT/US2007/085410

A. CLASSIFICATION OF SUBJECT MATTER

INV. H04L29/08

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

H04L

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and where practical search terms used)

EPO-Internal , WPI Data, INSPEC

* Special categories of cited documents

"A" document defining the general state of the art which is not considered to be of particular relevance

¹E¹ earlier document but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure use exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

¹X¹ document of particular relevance the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents such combination being obvious to a person skilled in the art

"&" document member of the same patent family
