G. Giusti, I-33100 Udine (IT)**

54 **Method and machine for insulating electric conductors for transformers by glueing insulation coating sheet and conductors thus insulated.**

57 Method and machine for producing electric strap conductors for carrying out transformers in general, by glueing to the conductor an insulating tape in longitudinal direction instead of helical direction. The conductor thus obtained has improved characteristics and can be produced at lower cost.

CATEGORY OF CITED DOCUMENTS

X : particularly relevant if taken alone
Y : particularly relevant if combined with another document of the same category
A : technological background
O : non-written disclosure
P : intermediate document

T : theory or principle underlying the invention
E : earlier patent document, but published on, or after the filing date
D : document cited in the application
L : document cited for other reasons
& : member of the same patent family, corresponding document
