(57) **CLAIM**

We claim the ornamental design for a TV receiver display with animated GUI, as shown and described.

DESCRIPTION

FIG. 1 is the first image in a sequence for a TV receiver display with animated GUI, showing our new design; and, FIG. 2 is a second image thereof.

The appearance of the TV receiver display with animated GUI transitions sequentially between the images shown in FIGS. 1-2. The process or period in which one image transitions to another, forms no part of the claimed design.

The broken lines shown in the figures are for the purpose of illustrating portions of the article, and environmental matter, including all text and symbols except for the double chevrons and double arrows, and form no part of the claimed design. The dash dot lines define the boundary of the claimed design, and form no part of the claimed design.
