# UNITED STATES PATENT OFFICE.

OSCAR E. A. WIESSNER, OF BROOKLYN, NEW YORK.

## DESIGN FOR A BEDSTEAD.

SPECIFICATION forming part of Design No. 24,152, dated March 26, 1895.

Application filed January 2, 1895. Serial No. 533,638. Term of patent 7 years.

*To all whom it may concern:*

Be it known that I, OSCAR E. A. WIESSNER, a citizen of the United States, residing at South Brooklyn, in the county of Kings and State of New York, have invented and produced a new and original Design for Bedsteads; and I do hereby declare the following to be a full, clear, and exact description of the same, reference being had to the accompanying drawing, forming a part thereof.

The drawing represents a perspective view of a bedstead exhibiting my design.

The leading feature of my design consists of two vertical side posts  $a$ ,  $a$  provided at their upper ends with ball or ring finials  $a'$   $a'$ . The said posts are connected by a cross rail or bar  $a^2$  which is curved or arched upward at its center to form a spire or loop  $a^4$  which terminates in a ball or ring finial  $a^5$ , as shown.

This design may be used separately for the head portion or for the foot portion of a bedstead, or the head and foot portions may be combined into one bedstead.

The central field  $a^6$  may be filled in with any suitable configuration without affecting my design, the essential feature of which is the top or crowning portion as just described.

What I claim as my invention is—

The design for a bedstead, substantially as shown and described.

In testimony whereof I hereunto affix my signature in presence of two witnesses.

OSCAR E. A. WIESSNER.
