(57) **CLAIM**

The ornamental design for an avionics display screen or portion thereof with animated computer icon, as shown and described.

DESCRIPTION

FIG. 1 is a front view showing an avionics display screen or portion thereof with animated computer icon; and, FIG. 2 is a front view showing an avionics display screen or portion thereof with animated computer icon.

The appearance of the transitional image sequentially transitions between the images shown in FIG. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken line showing of a display screen with graphical user interface is included for the purpose of showing portions of the article which form no part of the claim.

The claimed “avionics display screen or portion thereof with animated computer icon” is used as a visual instrument interface for assisting in spatial awareness.
