(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawings/photographs will be provided by the United States Patent and Trademark Office upon request and payment of the necessary fee.

FIG. 1 is a front view of the first image in a sequence of a display screen with graphical user interface showing our new design; and,

FIG. 2 is a front view of the second image thereof.

The evenly-spaced broken lines are included for the purpose of illustrating a display screen and elements of the graphical user interface that form no part of the claimed design.

The appearance of the animated image sequentially transitions between the images shown in FIGS. 1 through 2. This process or period in which one image transitions to another forms no part of the claimed design.
