DES. 2005

Russell Wheeler and Stephen A. Bailey of Utica, N.Y.

Letters Patent No. 2005 Dated December 6 1864

Design for a Cook's Stove

The schedule referred to in these Letters Patent and making part of the same.

To all whom it may concern:

Be it known that we, Russell Wheeler and Stephen A. Bailey, of the City of Utica, in the County of Oneida and State of New York, have invented a new and improved design for a cook stove and we hereby declare that the following is a full and exact description thereof, reference being had to the accompanying drawings: The nature of our invention consists in a new design for a cook stove.

To enable others skilled in the art to make and use our invention we will proceed to describe said design and construction.

Fig. 1 designates the stove when in use. A. A. in figures 1 and 2 designate the moulding on the edges of the upper or top plate. B. B. in figures 1 and 3 designate the front doors with open work in the upper part and ornament in the centre of the lower part. C. C. in figures 1 and 3 designate the end doors with ornament in the centre of each. D. D. in figures 1 and 3 designate the moulding on the lower or bottom plate. The stove is of cast iron and is represented by the above figures and letters in the accompanying drawings.

DES. 2005

2

What I claim as my invention and design, and desire to secure by Letters Patent is the form, ornaments, and design of a cock stave as above represented and described.
