(71) Applicant: **Samsung Electronics Co., Ltd. Suwon-si Gyeonggi-do (KR)**

(54) **Media player and control method thereof**

(57) Provided is a media player comprising a connector to which a cable for transmitting a media signal from an external source is connected, and a user manipulator, the media player including a signal processor for processing the media signal transmitted through the cable; a UI generator for generating a setting menu for setting characteristics of the cable; and a controller for con-

trolling the signal processor to process the media signal on the basis of the set characteristics of the cable inputted through the setting menu by the user manipulator. The media player and a control method thereof provides a user interface (UI) allowing a user to input information about cable characteristics, and process a signal according to the cable characteristics inputted by a user.

**ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.**

EP 06 11 8684

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on  
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
