(54) Title: SEARCH METHOD AND SYSTEM USING THINKING SYSTEM

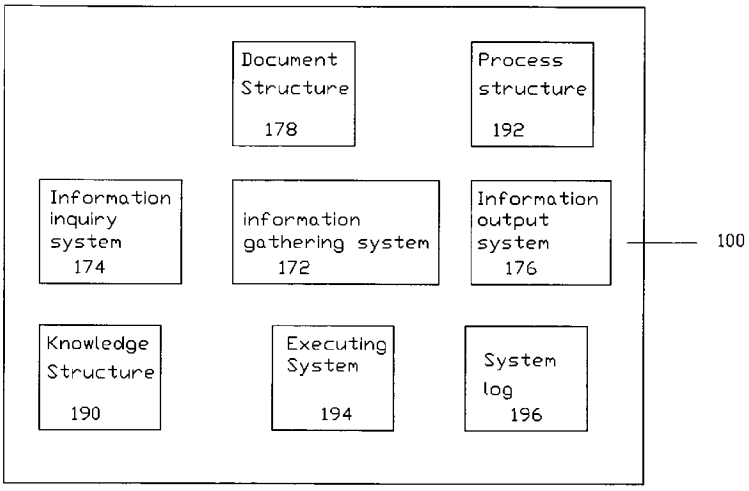

FIG. 2a

(57) Abstract: The present invention relates to a system and method for information process using artificially constructed apparatus. More specially, in one preferred embodiment of the present invention, documents can be processed so that the most relevant terms of the contents of the documents can be obtained, and searched. In another preferred embodiment of the present invention, the present invention provides a system and method that can search for information in a document structure and provide precise results by analyzing the inputs and search results using the executing system and the knowledge structure of the think system.

A. CLASSIFICATION OF SUBJECT MATTER
IPC(8) - G06F 17/00 (2009.01)
USPC - 707/100
According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
USPC: 707/100

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched
USPC: 707/100-101 | 704/10 | 700/90,104

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
PubWEST: (PGPB,USPT,EPAB,JPAB); Google Scholar; Google Patent
Search Terms: human-made system, robot, artificial intelligence, language, speech, speak, spoke, file, document, organizing, structure, identification information, process file, process structure, world knowledge, world data, world information, action sequence, image library

☐ Further documents are listed in the continuation of Box C. ☐

* Special categories of cited documents:
"A" document defining the general state of the art which is not considered to be of particular relevance
"E" earlier application or patent but published on or after the international filing date
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
"O" document referring to an oral disclosure, use, exhibition or other means
"P" document published prior to the international filing date but later than the priority date claimed
"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"&" document member of the same patent family
