We claim the ornamental design for a modular automated dispensing machine, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a modular automated dispensing machine according to the new design; FIG. 2 is a front elevation view of the modular automated dispensing machine shown in FIG. 1; FIG. 3 is a rear view of the modular automated dispensing machine shown in FIG. 1; FIG. 4 is a right side view of the modular automated dispensing machine shown in FIG. 1; FIG. 5 is a left side view of the modular automated dispensing machine shown in FIG. 1; FIG. 6 is a top view of the modular automated dispensing machine shown in FIG. 1; and, FIG. 7 is a bottom view of the modular automated dispensing machine shown in FIG. 1. In the drawings, the broken lines form no part of the claimed design.
