(54) Title: DEVICES, SYSTEMS, AND METHODS FOR DIAGNOSTIC TESTING

(57) Abstract: The present disclosure relates to devices, systems, and methods for performing diagnostic tests. The disclosed diagnostic devices are capable of performing analytic tests and communicating with a portable multifunctional device (PMD) or other computing device. Through input and manipulation of materials within the diagnostic device, a large range of tests may be performed. For example, alteration or customization of chemical components of the diagnostic device may enable many analytic applications to be provided. These analytic tests may include, but are not limited to, sensing or quantification of chemicals from sample input, whether gaseous, liquid, or otherwise, sensing or quantification of analytes, antibodies, or antigens, sensing or quantification of genetic material, or other substances.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US2013/049168

**Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)**

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

- 1.  Claims Nos.:  
because they relate to subject matter not required to be searched by this Authority, namely:
  
- 2.  Claims Nos.:  
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
  
- 3.  Claims Nos.: 9B, 10-33  
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

**Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)**

This International Searching Authority found multiple inventions in this international application, as follows:

- 1.  As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
- 2.  As all searchable claims could be searched without effort justifying additional fees, this Authority did not invite payment of additional fees.
- 3.  As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
  
- 4.  No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

**Remark on Protest**

- The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee.
- The additional search fees were accompanied by the applicant's protest but the applicable protest fee was not paid within the time limit specified in the invitation.
- No protest accompanied the payment of additional search fees.
