CLAIM
The ornamental design for an electric foot switch, as shown and described.

DESCRIPTION
FIG. 1 is a front perspective view of the electric foot switch;
FIG. 2 is a top view thereof;
FIG. 3 is a front view thereof;
FIG. 4 is a right side view thereof with the left side being a mirror image of the right side;
FIG. 5 is a rear view thereof;
FIG. 6 is a bottom view thereof;
FIG. 7 is a front perspective view of an alternative embodiment of the electric foot switch with an actuator knob and recess portion shown in broken lines;
FIG. 8 is a top view of the electric foot switch as shown in FIG. 7;
FIG. 9 is a front view of the electric foot switch as shown in FIG. 7;
FIG. 10 is a right side view of the electric foot switch as shown in FIG. 7 with the left side being a mirror image of the right side; and,
FIG. 11 is a rear view of the electric foot switch as shown in FIG. 7.

The broken line portions of FIGS. 6–11 are to show illustrative or environmental structure which forms no part of the invention as claimed in these specific figures.
