Abstract: An electronic display device mounting and stowage apparatus is provided which is releasably mountable in the operating compartment of a vehicle. The apparatus includes a containment member for securing the electronic display device, a mounting member for securing the apparatus to a preselected portion of the vehicle, for example, a seat assembly, and a positioning mechanism and locking lever to position the electronic display device in either a secure stowed position or in a secure viewable position during operation of the vehicle.
A. CLASSIFICATION OF SUBJECT MATTER

B60R 11/02(2006.01)i

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
IPC 8 : B60R

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched
Korean/other utility models and applications for utility models since 1975
Japanese utility models and applications for utility models since 1975

Electronic database consulted during the international search (name of database and, where practicable, search terms used)
eKIPASS (KIPO internal) : "airplane", "laptop", "pilot", "flight", "cockpit", "GPS"

C. DOCUMENTS CONSIDERED TO BE RELEVANT

☐ Further documents are listed in the continuation of Box C. ☒ See patent family annex.

* Special categories of cited documents:
"A" document defining the general state of the art which is not considered to be of particular relevance
"E" earlier application or patent but published on or after the international filing date
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)
"O" document referring to an oral disclosure, use, exhibition or other means
"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"&" document member of the same patent family
