The ornamental design for an integrated mailer assembly having a removable dual coupon card, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an integrated mailer assembly having a removable dual coupon card in accordance with the present invention;
FIG. 2 is a front plan view of the mailer assembly;
FIG. 3 is a rear plan view of the mailer assembly;
FIG. 4 is a side elevation view of the mailer assembly; and,
FIG. 5 is an end elevation view of the mailer assembly.

The elements shown in phantom are designated with dash-dot-dot-dash lines and are for illustrative purposes only and do not form part of the claimed invention. The evenly-spaced broken lines depict scores that form part of the claim.
