UNITED STATES PATENT OFFICE.

ALFRED H. DICKINSON, OF BUFFALO, NEW YORK.

DESIGN FOR A CUP.

SPECIFICATION forming part of Design No. 35,138, dated October 1, 1901.
Application filed July 15, 1901. Serial No. 66,424. Term of patent 7 years.

To all whom it may concern:

Be it known that I, ALFRED H. DICKINSON, a citizen of the United States, residing at Buffalo, in the county of Erie and State of New York, have invented and produced a new and original Design for Cups, of which the following is a specification, reference being had to the accompanying drawings, forming part thereof, in which—

Figure 1 is a perspective view of my cup; and Figs. 2, 3, and 4 are side elevations of the same, showing the design from various points.

As shown in said drawings, my design comprises scrolls or garlands, A, dividing the exterior surface into panels B of various sizes, in one of which panels is a representation of a waterfall C, with a female figure having outstretched arms, and in the other panels are other pictorial representations.

I regard as the leading or essential feature of my design the scrolls or garlands dividing the surface into panels, in one of which panels is a representation of a waterfall.

Having described my invention, what I claim as new, and desire to secure by Letters Patent, is—

The design for a cup, as herein shown and described.

In testimony whereof I hereby sign my name to this specification, in the presence of two subscribing witnesses, this 2d day of July, 1901.

ALFRED H. DICKINSON.

Witnesses:

JOHN M. HULL,

TERESA F. REILLY.
