(54) Title: METHOD FOR SCORING CHANGES TO A WEBPAGE

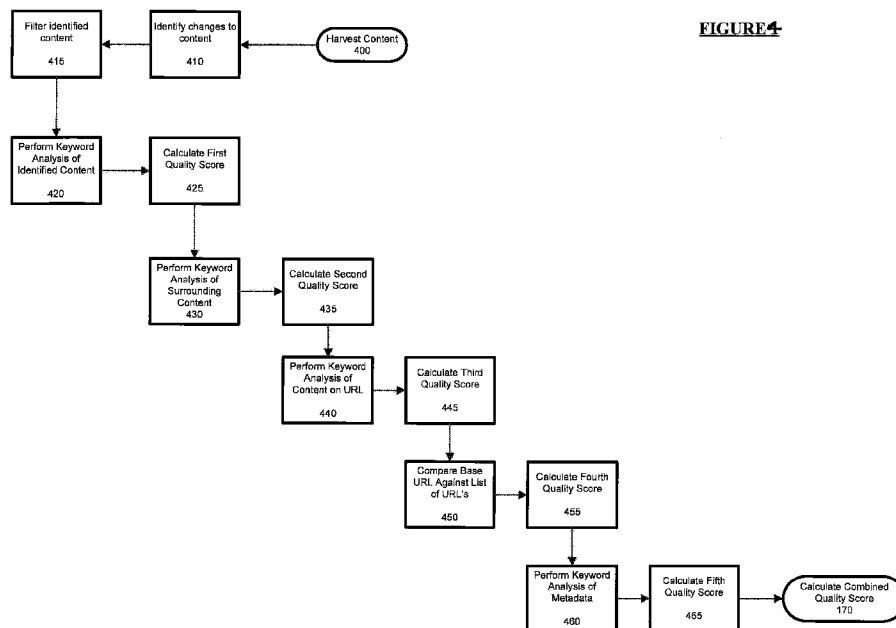

FIGURE 4

(57) Abstract: The present invention provides for a system and method for evaluating changes to internet content wherein content is harvested from Internet sources and the harvested content includes changed content. The harvested content is filtered and analyzed using one or more keyword analyses based on a predetermined list of one or more keywords. A quality score is determined based on the relative occurrence of the one or more keywords within or associated with the harvested content.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US07/69880

A. CLASSIFICATION OF SUBJECT MATTER

IPC: G06F 17/30(2006.01)
G06F 17/30(2006.01)

USPC: 707/3

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
U.S. : 707/10; 707/3

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
USPAT; USPGPUB; JPO; EPO; IBM_TDB; DERWENT

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

Further documents are listed in the continuation of Box C.

See patent family annex.

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
