To all whom it may concern:

Be it known that I, Francis James Coakley, a subject of the King of England, residing at London, in the Kingdom of England, have invented a new, original, and ornamental Design for a Curler Comb, of which the following is a specification, reference being had to the accompanying drawing, forming part thereof.

Figure 1 is a side elevational view of a curler comb embodying my new design; Fig. 2 is a top plan view thereof; Fig. 3 is a perspective view looking from the opposite side of Fig. 1; and Fig. 4 is a cross-sectional view taken on line 4—4 of Figure 1.

The characteristic features of the curler comb design disclosed reside in the lower pivoted curler prong and the retaining spring, having the configuration and arranged as shown.

I claim:

The ornamental design for a curler comb, as shown and described.

FRANCIS JAMES COAKLEY.
