(57) CLAIM
The ornamental design for a sports tank top with back pocket,
as shown and described.

DESCRIPTION

FIG. 1 is a rear and left-side perspective view of the sports
tank top with back pocket showing my new design;
FIG. 2 is a rear-elevational view thereof;
FIG. 3 is a front-elevational view thereof;
FIG. 4 is a right-side-elevational view thereof; and,
FIG. 5 is a top-plan view thereof.

The crosshatched pattern, although shown intermittently, is
meant to represent fabric, and is understood to be distributed
uniformly over the surfaces of the claimed design upon which
it occurs.

The short-segmented broken lines represent stitching which
is not claimed. The long-segmented broken lines showing a
partial human figure and the top of a water bottle in FIG. 1
illustrate the environment in which the design is used, and
form no part of the claim.
