UNITED STATES PATENT OFFICE.

EDWARD R. WHARTON, OF MEDFORD, MASSACHUSETTS, ASSIGNOR TO GILLETTE SAFETY RAZOR COMPANY, OF BOSTON, MASSACHUSETTS, A CORPORATION OF DELAWARE.

DESIGN FOR A HANDLE FOR A SAFETY RAZOR.

60,435. Specification for Design. Patented Feb. 14, 1922.

Application filed March 12, 1921. Serial No. 451,825. Term of patent 14 years.

To all whom it may concern:

Be it known that I, EDWARD R. WHARTON, a citizen of the United States, residing at Medford, in the county of Middlesex, State of Massachusetts, have invented a new, original, and ornamental Design for a Handle for a Safety Razor, of which the following is a specification.

In the accompanying drawing,

The figure is a side view of the handle of a safety razor ornamented with my design, the other parts of the razor being shown in dotted lines.

My design is not limited to any particular mechanical construction of the razor but resides essentially in the surface ornamentation, irrespective of the contour or material of the handle or mode of application of the design. It is best applied to a metallic handle by knurling the diamond-shaped figures thereon, leaving the diagonal bands plain.

I claim:

The ornamental design for a handle for a safety razor, as shown and described.

EDWARD R. WHARTON.
