[57] **CLAIM**

The ornamental design for an edge moulding, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an edge moulding showing my new design, the edge moulding being broken away in the center thereof to indicate an indeterminate length;

FIG. 2 is a perspective view of a second embodiment of an edge moulding showing my new design;

FIG. 3 is a perspective view of a third embodiment of an edge moulding showing my new design;

FIG. 4 is a perspective view of a fourth embodiment of an edge moulding showing my new design;

FIG. 5 is a perspective view of a fifth embodiment of an edge moulding showing my new design;

FIG. 6 is a perspective view of a sixth embodiment of an edge moulding showing my new design.

The edge moulding embodiments of FIGS. 1 through 6 are each of constant profile and of indeterminate length. The rear, bottom, and end not shown are plain and unornamented.
