CLAIM

The ornamental design for a hand-held electronic device, as shown and described.

DESCRIPTION

Fig. 1 is a top rear end isometric view of a first embodiment of a hand-held electronic device showing our new design; Fig. 2 is a bottom front end isometric view of the first embodiment; Fig. 3 is a top plan view of the first embodiment;
FIG. 4 is a bottom plan view of the first embodiment;
FIG. 5 is a left side elevational view of the first embodiment;
FIG. 6 is a right side elevational view of the first embodiment;
FIG. 7 is a front elevational view of the first embodiment;
FIG. 8 is a rear elevational view of the first embodiment;
FIG. 9 is a top rear end isometric view of a second embodiment of a hand-held electronic device showing our new design;
FIG. 10 is a top plan view of the second embodiment;
FIG. 11 is a left side elevational view of the second embodiment;
FIG. 12 is a right side elevational view of the second embodiment; and,
FIG. 13 is a rear elevational view of the second embodiment.
The broken lines in the figures are for illustrative purposes only and form no part of the claimed design. The bottom front end isometric view, the bottom plan view and the front plan view of the second embodiment are identical to the bottom front end isometric view, the bottom plan view and front plan view of the first embodiment.
