(54) Title: HAIR LIGHTENING COMPOSITION CONTAINING POLYMER FILM

(57) Abstract: Aqueous hair care compositions which provide hair styling, hair lightening and hair conditioning benefits are disclosed. The compositions provide hair lightening effects greater than that which would typically be achieved using hydrogen peroxide solutions alone. The compositions comprise a stabilized oxidative compound, a film-forming hair care polymer, a cationic hair care polymer, and water. The method of conditioning, styling and coloring hair utilizing the disclosed compositions is also disclosed.

* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance
 "E" earlier application or patent but published on or after the international filing date
 "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
 "O" document referring to an oral disclosure, use, exhibition or other means
 "P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
 "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
 "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
 "&" document member of the same patent family
