Title: USER WEARABLE PORTABLE COMMUNICATIVE DEVICE

Abstract: A user wearable portable communicative device and a method for establishing a communication between a remote health care monitoring center and a portable communicative device are disclosed. The portable communicative device includes a location tracking module for tracking a current location of the user through a communication network, a plurality of user controllable switches for enabling the user to establish a voice based communicative interaction with a plurality of health care providers present over a remote health care monitoring center, a physiological data collecting module for collecting the physiological data from a plurality of physiological data collecting devices of the user, a motion detecting module for reducing an amount of power consumed by the portable communicative device and a plurality of reminder modules for alerting the user to get a medication at a predetermined time.
## INTERNATIONAL SEARCH REPORT

### A. CLASSIFICATION OF SUBJECT MATTER

**G08B 1/08 (2006.01)**

**A61B 5/00 (2006.01)**

According to International Patent Classification (IPC) or to both national classification and IPC.

### B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

- G08B 1/00, 1/08, A61B 5/00, 5/02, 5/205, 5/022, G08C 17/00, 17/02

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched.

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

- PatSearch (RUPTO internal), Espacenet, PAJ, USPTO, Information Retrieval System

### C. DOCUMENTS CONSIDERED TO BE RELEVANT

Further documents are listed in the continuation of Box C. See patent family annex.

- Special categories of cited documents:
  - "F" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
  - "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
  - "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
  - "&" document member of the same patent family

Date of the actual completion of the international search

- 31 March 2014 (31.03.2014)

Date of mailing of the international search report
