CLAIM

The ornamental design for a color display rack, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a color display rack; FIG. 2 shows a front view of a main color display unit of a color display rack according to FIG. 1; FIG. 3 shows a back view of a main color display unit of a color display rack according to FIG. 1; FIG. 4 shows a right side view of a main color display unit of a color display rack according to FIG. 1; FIG. 5 shows a left side view of a main color display unit of a color display rack according to FIG. 1; and FIG. 6 shows a top plan view of a main color display unit of a color display rack according to FIG. 1.

Wherein the broken lines in FIGS. 1-6 showing a first sub display unit, a second sub display unit and a central work center comprising a work table and a rotating color display apparatus are only for purposes of illustrating portions of the environmental structure and form no part of the claimed design.
