Title: ENHANCED ELASTOMER COATED, PROTECTIVE BARRIER FABRIC AND PROCESS FOR PRODUCING SAME

Abstract: Coated barrier fabrics are prepared with a two part, cold cure polyomethylsiloxane composition and a unique two pass, two cure rate, coating process. Preferably, the coated fabrics have overlayed a second uncoated fabric on the inner surface of the coated substrate. This preferred process realizes a reusable medical barrier fabric with exceptional durability even after undergoing many laundering / autoclaving / drying cycles.
INTERNATIONAL SEARCH REPORT

A.  CLASSIFICATION OF SUBJECT MATTER
   IPC:  B32B 5/02(2006.01), 27/04(2006.01)
   USPC:  442/79.81
   According to International Patent Classification (IPC) or to both national classification and IPC

B.  FIELDS SEARCHED
   Minimum documentation searched (classification system followed by classification symbols)
   U.S.:  442/79.81
   Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched
   Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

C.  DOCUMENTS CONSIDERED TO BE RELEVANT

<table>
<thead>
<tr>
<th>Category</th>
<th>Citation of document, with indication, where appropriate, of the relevant passages</th>
<th>Relevant to claim No.</th>
</tr>
</thead>
</table>

Further documents are listed in the continuation of Box C.

Special categories of cited documents:

- "A" - document defining the general state of the art which is not considered to be of particular relevance
- "E" - earlier application or patent published on or after the international filing date
- "L" - document which may throw doubts on prior claims or which is cited to establish the publication date of another invention or other special reason (as specified)
- "O" - document referring to an oral disclosure, use, exhibition or other means
- "P" - document published prior to the international filing date but later than the priority date claimed
- "T" - later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "N" - document of particular relevance, the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" - document of particular relevance, the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" - document member of the same patent family

Date of the actual completion of the international search: 12 June 2006 (12.06.2006)
