(54) Title: SPECIFICATION WIZARD

(57) Abstract: A system for facilitating the creation of design specifications includes a computer and a database having stored thereon data indicative of a plurality of storage locations in a processed specification into which data may be entered. Software executing on the computer: displays a requirements document; receives an indication of a selected portion of the requirements document; based at least in part upon the indication of the selected portion of the requirements document, retrieves from the database a list of possible storage locations corresponding to the selected portion of the requirements document; displays the list of possible storage locations corresponding to the selected portion of the requirements document; receives an indication of a selected storage location; receives an indication of data selected in the requirements document to be stored in the selected storage location; and stores the selected data in the selected storage location in the processed specification.

PCT/IB2006/003617

A. CLASSIFICATION OF SUBJECT MATTER

INV. G06Q10/00

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

G06Q G06F G06K

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)
