(54) Titre : **SYSTEME ET FONCTIONNALITE D'ENDOSCOPE SOUPLE**

(54) Title: **FLEXIBLE ENDOSCOPE SYSTEM AND FUNCTIONALITY**

(57) **Abrégé/Abstract:**

An enhanced flexibility auxiliary endoscope assembly for use with an endoscope, the assembly comprising: an elongate element and an elongate channel each arranged for mounting at a different location on a distal portion of said endoscope, said elongate channel being arranged to receive said elongate element to a variable elongate extent, at least one of said elongate element and said elongate channel being flexible; and said variable elongate extent varying as a function of a degree of bending of said endoscope.
