(54) Title: SYSTEM AND METHOD FOR FACE AND BODY TREATMENT

(57) Abstract: A system and method are provided for self-application of a variety of face and body treatments. Specifically, the system includes a portable control-and-power console (70) and a light-weight portable device having a plurality of spouts (12), designed for different portions of the body, and comprising different features. The different features are adapted for different modes of treatment, such as suction massage treatment (12), lower-chin firming treatment (39), breast firming treatment (31, 33) warming light treatment (46), UV light treatment (46), LLLT (46), ultrasound treatment (60), pulsating magnetic field treatment (62), constant magnetic field treatment (62), electrostimulation treatment (27), cooling-diode treatment (47), warming-diode treatment (47), mechanical epilation (124), and photoepilation (110). Additionally, each spout (12) includes at least two, and preferably three or more features, for applying different modes of treatment, in tandem or in sequence, in accordance with predetermined schedules.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/IL02/00658

A. CLASSIFICATION OF SUBJECT MATTER

IPC(7) : A61H 7/00
US CL : 601/7, 9, 15

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
U.S. : 601/6,7, 9, 10, 11, 12, 14, 15; 607/89, 91, 94; 604/313

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
APS

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

Further documents are listed in the continuation of Box C.

See patent family annex.

* Special categories of cited documents:		"T"	later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"A"	document defining the general state of the art which is not considered to be of particular relevance	"X"	document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"E"	earlier application or patent published on or after the international filing date	"Y"	document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"L"	document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"&"	document member of the same patent family
"O"	document referring to an oral disclosure, use, exhibition or other means		
"P"	document published prior to the international filing date but later than the priority date claimed
