(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen with graphical user interface, showing our novel design. The broken lines showing the electronic computing devices is provided for the purpose of illustrating environmental structure. Additionally, the broken lines showing the display screen of the computing device and elements of the graphical user interface illustrate portions of the article. No subject matter shown in broken lines form part of the claimed design.
