Provided is a landscape edging system comprising runs having a profile comprising a base, front edge and, in some embodiments, a leading edge, as well as a first specialized region, and optionally one or two additional specialized regions which can permit easy mowing up to the forwardmost edge of the edging, and can prevent lawn mower blade damage to the edging. In a preferred embodiment, the runs are comprised of shredded rubber.

INTERNATIONAL SEARCH REPORT

International application No.
PCT/US 09/42545

A. CLASSIFICATION OF SUBJECT MATTER

IPC(8) - A01G 1/08 (201.2.01)

USPC - 47/33

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

USPC: 47/33

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

USPC: 47/33: 52/102: 404/32 IPC(8): A01G1/00; E01C5/00, 5/18 (keyword limited; terms below)

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

PubWEST(PGPB, USPT, EPAB, JPAB); Google Search Terms Used: overhang$, tab, secur$, attach$, ground, hollow, unfilled, landscap$, garden$, edg$, shred$, rubber

Further documents are listed in the continuation of Box C.

* Special categories of cited documents:
  "A" document defining the general state of the art which is not considered to be of particular relevance
  "E" earlier application or patent but published on or after the international filing date
  "I" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
  "O" document referring to an oral disclosure, use, exhibition or other means
  "P" document published prior to the international filing date but later than the priority date claimed
  "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
  "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
  "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
  "&" document member of the same patent family

Date of the actual completion of the international search
