(57) **CLAIM**

The ornamental design of a label dispenser and molded component therefor, as shown and described.

DESCRIPTION

FIG. **1** is an elevational view of the dispenser package of the present invention including a molded component and flat paperboard member adhered thereto;
FIG. **2** is an elevational view of the molded component, shown separately for clarity of illustration;
FIG. **3** is a side elevational view of the molded component as viewed from the right of FIG. **2**;
FIG. **4** is a side elevational view of the molded component as viewed from the left of FIG. **2**;
FIG. **5** is a top view of molded component shown in FIG. **2**; and,
FIG. **6** is a bottom view of the molded component shown in FIG. **2**.
