UNITED STATES PATENT OFFICE.

SARAH A. MOULTON AND LOIS M. JONES, OF GRAND RAPIDS, MICHIGAN.

DESIGN FOR A SKIRT-SUPPORTING ATTACHMENT FOR BELTS AND CORSETS.

SPECIFICATION forming part of Design No. 30,126, dated January 31, 1898.
Application filed January 5, 1898. Serial No. 701,288. Term of patent 14 years.

To all whom it may concern:

Be it known that we, SARAH A. MOULTON and LOIS M. JONES, citizens of the United States, residing at Grand Rapids, in the county of Kent and State of Michigan, have invented and produced a new and original Design for a Skirt-Supporting Attachment for Belts and Corsets, of which the following is a specification, reference being had to the accompanying drawing, forming part thereof.

The figure of the drawing is a perspective view of a skirt-supporting attachment for a corset and belt and embodies our design.

As shown in the drawing, the leading or material features of our design consist of a flat or slightly-curved plate, upwardly-projecting arms near each end of the said plate, projections on the outer face of the plate near the arms, and transverse slots close to each end of the plate.

A represents a flat or slightly-curved plate substantially in the form of a rectangular parallelogram and having rounded corners. The arms B B extend laterally upward from near each end of this plate and consist of 25 narrow strips having parallel sides and provided with a series of openings C near their upper ends. Adjacent to the lower ends of the arms B B are two projections D D, having enlarged outer ends. Close to the respective ends of the plate A are transverse slots E E, extending nearly across the plate, and at the middle of the plate A and near the lower edge thereof is the oblong opening F.

Having thus fully described our invention, what we claim, and desire to secure by Letters Patent, is—

The design for a skirt-supporting attachment for a belt and corset, substantially as herein shown and described.

In testimony whereof we affix our signatures in presence of two witnesses.

SARAH A. MOULTON.
LOIS M. JONES.
